

```
rbase< nparts, dimx,  
float_t >
```

A diagram showing a vertical relationship between two C++ template classes. At the bottom is a white box containing the code 'mn\_resampler< nparts, dimx, float\_t >'. A blue arrow points upwards from the top center of this box to the bottom center of a gray box above it. The gray box contains the code 'rbase< nparts, dimx, float\_t >'. This indicates that 'rbase' inherits from 'mn\_resampler'.

```
mn_resampler< nparts,  
dimx, float_t >
```
